

# Can I Jump?

Freya Ridings

I got a parachute that I'm about to use now, now, now, now  
High in the altitude you said just never look down, down, down, down  
And I know you well but I'm scared as hell  
Trying not to feel the fear I'm feeling now

Can I jump  
Love you all the way  
Give you everything I've got  
Can I jump  
Would you walk away  
When I'm standing at the top

I don't think my heart can take  
Any promises that break  
Wanna take a leap of faith for us

Can I jump  
Love you all the way  
Give you everything I've got, I've got, I've got

We're flying with the birds  
Across the universe round, round, round, round  
But I know hard it hurts, to fall and hit the earth, face down  
And I know you well but I'm scared as hell  
Trying not to feel the fear I'm feeling now  
Oh

Can I jump  
Love you all the way  
Give you everything I've got  
Can I jump  
Would you walk away  
When I'm standing at the top

I don't think my heart can take  
Any promises that break  
Wanna take a leap of faith for us

Can I jump  
Love you all the way  
Give you everything I've got, I've got, I've got

Ooh, ooh, ooh ooh  
Ooh, ooh, ooh ooh  
Ooh, ooh, ooh ooh  
Ooh, ooh

Can I jump  
Love you all the way  
Give you everything I've got  
Can I jump  
Would you walk away  
When I'm standing at the top

I don't think my heart can take  
Any promises that break  
Wanna take a leap of faith for us

I don't think my heart can take any  
Promises that break  
Wanna take a leap of faith for us

Can I jump  
Love you all the way  
Give you everything I've got, I've got, I've got

Ooh, ooh, ooh  
Ooh, ooh, ooh  
Ooh, ooh, ooh, ooh  
Give you everything I've got  
Give you everything I've got  
Ooh, Give you everything I've got
