

Wishbone

Freya Ridings

You make it look so easy
I know it's not
And the way you're looking at me
Is all I've got

And every wishbone I break
And every candle and every cake
Is not the same

Tell me that I'll see you again
Even if we have to pretend
I don't even need to know when
Tell me that I'll see you again

You made me heart beat so fast
I was always counting down
You held me in that slow dance
But there's no music now

Every wishbone I break
Every new day I face
Old friend

Tell me that I'll see you again
Even if we have to pretend
I don't even need to know when
Tell me that I'll see you again
Tell me that it's not the end

You make it look so easy
I know it's not
