

## February '23

Friday

Taking it one day at a time for you  
You know how life can be, it will all go away  
It'll all be fine, just keep on going  
And then one day you will see how far you came

Yea I been praying out for years, thank God you finally heard me  
I put the work in trustin' God, I saw a M by 30  
I took too many L's, ain't ever take it as a loss  
I took it as a lesson, it came with many blessings  
Shit, it was all worth it  
They try to knock you off your feet when you walkin' in purpose  
No, I ain't say I'm perfect  
I coulda quit too many times, I had to stand the rain  
I put my life all on the line, even though they all changed  
Even though they all changed  
If it's anybody who would know you know how far I came  
You know how far I came  
We from a place they take you out before you get a name  
Oh look how far we came  
We number one in Africa, they understand the pain  
Oh now we overseas  
I feel like Durkio, the voice, I'm what my people need

First year I'm at the Grammys  
I'm nominated too many times, I don't know how to act  
It's five to be exact  
We lost in every category, can you imagine that?  
I seen the pain in Khaled eyes, he telling me sorry  
I told him bro, don't worry  
'Cause where I'm from we don't got no voice, but you helped tell my story  
Now let's take a ride the Storie  
We at the club, they shakin' ass while we give God the glory  
I'm on the stage with Wayne and Khaled, can you imagine that?  
Oh God you really did, I'm havin' talks with Hov  
He told me keep my foot on gas so I can make it big  
It's been like two, three years, oh now I'm finally here  
I kept on goin', I kept on flowin'  
And I ain't stopped since  
I sing the hooks, they sing along, and we all sing  
Too many plaques in the wall, nail 'em all in  
I told my brothers I won't stop 'til we all win  
'Til we all rich

Yea I been praying out for years, thank God you finally heard me  
I put the work in trustin' God, I saw a M by 30  
I took too many L's, ain't ever take it as a loss  
I took it as a lesson, it came with many blessings  
Shit, it was all worth it  
They try to knock you off your feet when you walkin' in purpose  
No, I ain't say I'm perfect  
I coulda quit too many times, I had to stand the rain  
I put my life all on the line, even though they all changed
