

# Wait For Me

Fridayy

Wait for me, wait for me  
One time is all I need

When I'm with you I get the feeling  
You know the one that you can't control  
Give me what I ain't know what's missing  
Like a touch, I can feel in my soul

No matter how far, no matter the distance  
Or the trouble down the road  
If you're there, I will find my way to be with you  
Oh, oh

Please, can you wait for me? Wait for me? (Oh)  
One time is all I need  
Right now, I need somebody, somebody  
Somebody, oh, like you

With me, you don't need nobody  
Together we're writing this story  
Let me take you to the sky  
Give you loving all the time  
I'll blow you a kiss in the morning  
Give you my heart when you wanting  
And you need someone, you know I'll be right there

Ma se gudugudu meje yaya mefa  
Hop on the plane straight to Africa  
With me, you don't need no Visa  
Baby, make we just dey dance makossa, oh, I  
I really do  
Take me straight to the altar  
Put a ring on my finger  
Hope you know that I will wait for you

No matter how far, no matter the distance  
Or the trouble down the road  
If you're there, I will find my way to be with you  
Oh, oh

Please, can you wait for me? Wait for me? (Wait for me, wait for me)  
One time is all I need (One time is all I need)  
Right now, I need somebody, somebody  
Somebody, oh, like you

Please, can you wait for me? Wait for me? (Wait for me, wait for me)  
One time is all I need  
Right now, I need somebody, somebody (Oh)  
Somebody, oh, like you
