Almost Midnight

Friendly Fires

I've got these feelings I've been keeping locked away from you
And now I'm under pressure knowing that you're in the room
I've always shied away from telling you what's on my mind (Alright)
Here goes the chance, get lost with me tonight

Don't you know that
Maybe this could change your future
Maybe this could change your future

Go in for the kiss
Now it's almost midnight
Go in for the kiss
I got so much riding on this

I look around and everyone but me is getting down
They press the smoke machine and now I'm floating in the clouds
Keep staring at my watch
I'm wondering what I'm gonna do (Alright)
Don't wanna think about somebody going home with you

Don't you know that
Maybe this could change your future
Maybe this could change your future

Go in for the kiss
Now it's almost midnight
Go in for the kiss
I got so much riding on this
Go in for the kiss
Now it's almost midnight
Go in for the kiss
I got so much riding on this

It's almost midnight
It's almost midnight
Got so much riding on this

Go in for the kiss
Now it's almost midnight
Go in for the kiss
I got so much riding on this

Got to do it, got to do it now
Got to do it 'cause it's almost midnight
Got to do it, got to do it now
Got to do it 'cause it's almost midnight
