

## Can't Wait Forever

Friendly Fires

Shake your body now  
Shake your body now

Broken promises, waited all this time to lie  
I can make it out with all this comfort in my mind

You know that I, I can't keep waiting forever  
You know that I, I can't keep waiting forever  
Can't keep waiting forever  
Can't keep waiting forever  
Forever, forever, forever

Shake your body now  
Shake your body now

Here I am again, watching chances pass me by  
Scared of tripping up, maybe I set the bar too high

You know that I, I can't keep waiting forever  
You know that I, I can't keep waiting forever

Shake your body now  
Shake your body now

Now is not the time to be waiting on the side  
Or question if it's wrong or right  
Perfect wind is risin' and I hold my head up high  
And see beyond the whirlwind as the men inspired by gods  
In a world that waits in silence  
Maybe I need to realize, I need to realize  
I can't keep waiting forever  
Forever

Shake your body now  
Shake your body now  
Shake your body now  
I can't keep waiting forever  
Shake your body now  
I can't keep waiting forever
