

Sleeptalking

Friendly Fires

I'm deep in insomnia
And you're dreaming by my side (Dreaming)
Nocturnal fantasies, beyond my sanity
Maybe I'm dramatic, but dramatic's on my mind

Is it black pearls or emeralds?
Or could it be another guy?
Thoughts are running wild
Then I hear you say out loud
What I've been waiting for

While you sleep
You tell me how you really feel
And whisper words I wanna hear
In another world, where nothing's left unspoken
While you sleep
You give your secrets up to me
Say the words I really need
In another world, where nothing's left unspoken

Sleeptalking
Sleeptalking

Real love on the radio
Hear the sirens from outside
Nocturnal fantasies, beyond my sanity
Maybe I'm dramatic, but dramatic's what I'm like

Is it black pearls or emeralds?
Could it be another guy?
Thoughts are running wild
Then I hear you say out loud
Feel that release as you talk to me

While you sleep
You tell me how you really feel
And whisper words I wanna hear
In another world, where nothing's left unspoken
While you sleep
You give your secrets up to me
Say the words I really need
In another world, where nothing's left unspoken

(While you sleep)
(To hear, in another world)
(You best believe that you talk to me)
(While you sleep)
(To hear, in another world)
(You best believe that you talk to me)

While you sleep
You tell me how you really feel
And whisper words I wanna hear
In another world, where nothing's left unspoken
While you sleep
You give your secrets up to me
Say the words I really need

In another world, where nothing's left unspoken
