

## How It Gets In

### Frightened Rabbit

Bring on the bandages, pressure the wound  
It's a bright, bright red that colors us in  
Good for the invalids, downers, and killers  
In sick, sick beds and silicone drips

Buzzing towards me  
Spirit awakens  
A once lived glitch  
And that's how it gets in  
It's how it gets in, It's how it gets in  
We're invisible lovers  
It's how it gets in, It's how it gets in  
To invisible lovers

Cowering youngsters, elastic and covered  
In feather-down hair all standing on end  
Even the others' thick skin bears the evidence  
Cuts so thin, how does it get in?  
How does it get in?  
There's a place where you live

It's how it gets in, It's how it gets in  
Even invisible lovers  
It's how it gets in, It's how it gets in  
To invisible lovers

It's how it gets in, It's how it gets in  
To invisible lovers

Opened by instruments, closed by a thread  
There's a space in the stitch
