

Hate Me Too

From Ashes to New

I wish I hated you
And after all this shit you should hate me too

I wish that I could see
You're not the one for me
I lost the old you, lost the old me
Found the misery
I wish that you believed
We'll never change a thing
'Cause we been reckless and this mess is
Fucking killing me

Every day sucks when we try to make up
I wanna take drugs so I never wake up
I wanna get away, I'll never get away
I'll tell ya to your face, I'll tell ya straight up that

I wish I hated you
And after all this shit you should hate me too
We scream 'til we choke, our hearts in our throats
We just can't let it go, woah
I wish I hated you
And you should hate me too
You should hate me too

I wish I had a clue
'Cause you're like a bad tattoo
Yeah I was stupid, can't remove it
Now I'm stuck with you
I wish we would've known
'Cause we're going up in smoke
Just strike the match and turn our backs
Burn down this broken home

Every day sucks when we try to make up
I wanna take drugs so I never wake up
I wanna get away, I'll never get away
I'll tell ya to your face, I'll tell ya straight up that

I wish I hated you
And after all this shit you should hate me too
We scream 'til we choke, our hearts in our throats
We just can't let it go, woah
I wish I hated you
And you should hate me too
You should hate me too

I wanna get high, yeah, I wanna stay numb
The love never works like the cocaine does
I wanna get away, I'll never get away
I'll tell ya to your face, I'll tell ya straight up

I wish I hated you
And after all this shit you should hate me too

I wish I hated you
And after all this shit you should hate me too

We scream 'til we choke, our hearts in our throats
We just can't let it go, woah
I wish I hated you
And you should hate me too
You should hate me too
You should hate me too

And you should hate me too
