

Light it Up

From Ashes to New

What makes you think you're special
What makes you think you're special

What makes you think you're special and on my level
Looking down on me and doubting me, so proud to be so damn judgmental
You think that I'm the devil, and so resentful
Look around and see your how to be is about to leave you unsuccessful
Open your mouth, I'll shut it, ain't no one else who's done it
I know you think you've heard these words before, but you know nothing
If you're so good at something, why's it my verse you're humming?
So watch and learn, you have to walk before you think of running

Oh, you don't know
What goes around comes back around
Oh, now you know
So watch me now

I'm gonna light it up, light it up right now
And show you that you'll never put me out
So give it up, give it up right now
'Cause I'm gonna burn it down, down, down, down, down

It's not the last of me; in fact, it's practically just blasphemy
To act like you could drag me down like gravity
So what's your strategy? You keep attacking me
But actually, your stabs at me became your own catastrophe
Sit back and watch me light it, can't stop it, been there, tried it
Can't put me out, I'll burn you down when I become ignited
Keep selling, no one's buying, yeah, they all know you're lying
You talk that shit so much, no mint's enough for you to hide it

Oh, you don't know
What goes around comes back around
Oh, now you know
So watch me now

I'm gonna light it up, light it up right now
And show you that you'll never put me out
So give it up, give it up right now
'Cause I'm gonna burn it down, down, down, down, down

Shameless, empty and faceless, sick and contagious
The way you spread your lies
Just keep saying my name 'cause you're making me famous
And now you realize
Light it up, light it up right now
You'll never put me out

I'm gonna light it up, light it up right now
And show you that you never put me out
So give it up, give it up right now
'Cause I'm gonna burn it down, down, down, down, down
I'm gonna light it up, light it up right now
Show you that you never put me out
So give it up, give it up right now
'Cause I'm gonna burn it down, down, down, down, down

Open your mouth, I'll shut it, ain't no one else who's done it
I know you think you've heard these words before, but you know nothing
If you're so good at something, why's it my verse you're humming?
I'm gonna burn it down, down, down, down, down
