

# Wait for Me

## From Ashes to New

When the light goes dark and I fall apart  
Will you wait wait wait for me?

It's all black  
I'm here alone  
I want back everything I said wrong  
I lost track  
I'm feeling low  
Sleeping with my demons got me seeing ghosts  
I thought that I let go  
My dark past follows like a shadow  
It comes back  
It's an echo  
Wish I could be the one to let the hate go

Will you still have a reason  
To be there in the end?

When the light goes dark and I fall apart  
Will you wait wait wait for me?  
Wait wait wait  
When it hurts like hell and I lose myself  
Will you wait wait wait for me?  
Wait wait wait for me

Want the same thing  
In different ways  
The same vision  
But on a different page  
All the aggression all the rage  
What if we just throw it all away?  
I hate this  
What it became  
We're wasting minutes turning into days  
Too much time now we're in too deep  
Long nights never gonna get no sleep

Will you still have a reason  
To be there in the end?

When the light goes dark and I fall apart  
Will you wait wait wait for me?  
Wait wait wait  
When it hurts like hell and I lose myself  
Will you wait wait wait for me?  
Wait wait wait for me

When the light goes dark and I fall apart  
Will you wait wait wait for me?

When the light goes dark and I fall apart  
Will you wait wait wait for me?  
Wait wait wait  
When it hurts like hell and I lose myself  
Will you wait wait wait for me?  
Wait wait wait for me
