

The Fightback

From Dawn To Fall

We meet us halfaway and
we know that it's not allowed
don't hold them back
these unexpected thoughts we have
now we're standing here all alone
just let them go
these unaccepted dreams we live

we will fight back
we will strike back

do you believe they will bleed with us
[we will fight back, we will strike back, till the end]
and do you believe there's no way to run

you could come close and
release me we're so far from done
on personal demand
i hold your hand and call you mine
please don't tell me you're leaving now
on popular demand
you take your heart back call me crime

we will fight back
we will strike back

do you believe they will bleed with us
[we will fight back, we will strike back]
and do you believe there's no way to run
[we will fight back, we will strike back, till the end]
do you believe, they will bleed with us
[we will fight back, we will strike back]
and do you believe there's a need to run
