

A Better Tomorrow

From Fall To Spring

Starring at the news, I can't believe what I see
Its only filled with hate and rising terror on the streets
Violence everyday and we are so far from relief
One century of learning, but what did we achieve?

Time for a change, before its too late
Cause there's a war in our heads, and I'm sick of it
It drives me insane, we're all the same
And this time we need everyone for this world to sustain

We're in this together, I know, so let's fight for a better tomorrow

Starring at the news I can't believe what they've done
Crimes from immigrants and refugees are subject number one
Carefree people turn their backs on families on the run
If we're not helping each other, then what have we become?

Time for a change, before its too late
Cause there's a war in our heads, and I'm sick of it
It drives me insane, we're all the same
And this time we need everyone for this world to sustain

We're in this together, I know, so let's fight for a better tomorrow
