

COME ALIVE

From Fall To Spring

Where do I begin?
Why is this so complicated?
Crawling in my skin
Closing in

We're spinning again
Like two birds of a feather
Feeding on the pain
Wasting away

Who will save me now?
Can we ever stop, no we never stop
Heal my heart somehow
There's no way out
Lonely through the night
Black clouds arise
Won't go down without a fight
Will I come alive?

Been stuck in the ways of my past
I'm looking away from the facts
No wonder I'm running in circles
Just barely a person
I'm wearing a mask

Been stuck in the ways of my past
Barely hanging by a thread
No wonder I'm running in circles
Just barely a person
I'm wearing a mask

We're so intertwined that I start to feel jaded
Trapped inside my mind
Can I escape?

Who will save me now?
Can we ever stop, no we never stop
Heal my heart somehow
There's no way out
Lonely through the night
Black clouds arise
Won't go down without a fight
Will I come alive?
(Will I come alive?)

Chains of dark they pull me under
Silent screams as loud as thunder
Slowly I'm fading away
(Slowly I'm fading away)

We're spinning again
Like two birds of a feather
Feeding on the pain
But now we're gonna pay
(Go)

Thanks for nothing

We are not the same

Who will save me now?

Can we ever stop, no we never stop

Heal my heart somehow

There's no way out

Lonely through the night

Black clouds arise

Won't go down without a fight

Will I come alive?

Will I come alive?

Stuck in the ways of my past

Still looking away from the facts

No wonder I'm running in circles

I'm barely a person at last
