

Light Up The Sky

From Fall To Spring

I swear you got upset
When you heard my latest track
So far above the rest
Sorry you got obsessed

Keep wishing I'd stop with the rap shit
And watch me rise to the top with a smash hit

You think you are the best
Let's put this to the test
Oh wait, results came back
I'm deeply unimpressed

Still wishing I'd stop with the rap shit
While I'm reviving the scene with my new track

You know it hurts like hell
When you're pushed against the wall
I cannot breathe
It's time to break them all

Light up the sky, burn the ceiling
Turn your back, don't you waste my time
Shut your mouth and watch your ego

Light up the sky, burn the ceiling
Don't attack, don't you waste my time
Shut your mouth and watch your ego die

I'm becoming cold as ice, won't pay the price
I'll look inside your goddamn mind
Only to find it's empty
Pick a fight until I die
I'm coming with another surprise
You cannot deny you'll hate this

You know it hurts like hell
When you're pushed against the wall
Drop dead, you know I'm winning this contest
Watch that, yes I'm the only one bringing rock back

Light up the sky, burn the ceiling
Turn your back, don't you waste my time
Shut your mouth and watch your ego

Light up the sky, burn the ceiling
Don't attack, don't you waste my time
Shut your mouth and watch your ego die

Deep down you gotta admit
This fucking beat is sick
And I'm destroying it
There's no way I will quit
No way out of this, prepare to take a hit
Count on me, I'm standing at the frontline

Yeah

Count on me, I'm standing at the frontline

Drop dead, you know I'm winning this contest
Watch that, yes I'm the only one bringing rock back

Shut up!

Light up the sky, burn the ceiling
Light it up, light it up right now
Light it up, light it up right now

Light up the sky, what a feeling
Light it up, light it up right now
Light it up, light it up and sing it

Light up the sky, burn the ceiling
Turn your back, don't you waste my time
Shut your mouth and watch your ego

Light up the sky, burn the ceiling
Don't attack, don't you waste my time
Shut your mouth and watch your ego

(Light it up)
Ha, deep down you gotta admit
This fucking beat is sick, and I'm destroying it
(Sing it)
No way out if this I'm gonna
Light it up, light it up and sing it
