

## Start A Comeback

### From Fall To Spring

Don't wanna play your games  
I'm caught up in this house  
You never listen to me no  
Don't you wanna rescue me  
Cause I am right too close to the edge  
But you never listen to me no

I'm insecure  
I'm insecure

I guess we've gone too far  
And I really wanna know now  
Could we ever try to stop this war  
And start a comeback  
Start a comeback with me

I cannot escape I keep falling  
You echoes through my head  
I can't ignore it  
Never gonna change  
Never gonna change

And I fall right back  
Into habits I regret  
Like a broken record set  
To the same annoying track  
Could have sworn that I am over you  
It's long overdue  
But you stick to me like a damn tattoo

Our happy ending  
Has been manifesting in my mind  
But so far out of sight

I'm insecure  
I'm insecure

But after all I guess we've gone too far  
And I really wanna know now  
Could we ever try to stop this war  
And start a comeback  
Start a comeback with me  
Start a comeback  
Start a comeback with me  
Start a comeback  
Start a comeback

When I close my eyes  
All I see is your shimmering light  
All I see is a time when it all felt so easy  
It all felt so right

(I'm insecure)  
(I'm insecure)

I guess we've gone too far  
And I really wanna know now

Could we ever try to stop this war  
And start a comeback  
Start a comeback with me  
Start a comeback  
Start a comeback with me  
Start a comeback  
Start a comeback with me
