## **Goodbye Waves**

## **From First to Last**

There's an ocean out my window It's puny and it's tears There's an ocean out my window It's crashing in my head

Oh sea, you shelter You dance between my toes When I feel like I can't move forward You carry me like a father

Breathing is the hardest thing I do I'm not the only person in the room It's hard to mean, to feel like I'm not...
