

Faces

From Indian Lakes

Call the places you come from
They're reaching out to see if you're okay
I clear away the faces, the faces
All your bad days were wasted
You sit there smiling at the bathroom mirror
I clear away the faces, the faces

If your words are sharper than a knife
You'll go through with saying goodbye
I clear away the faces, the faces
And everything you ever tried
Falling down before your eyes
I clear away the faces, the faces

I was tripped up, I fell down
To get back up is to run and hide

And you come back so soon
But you don't have anything else
I clear away the faces, the faces

If your words are sharper than a knife
You'll go through with a goodbye
I clear away the faces, the faces
And everything you ever tried
Falling down before your eyes
I clear away the faces, the faces

We had a place away from everything
But I know it's not the same
I clear away the faces, the faces
The world is nothing but a dream
But you felt so real to me
I clear away the faces, the faces

I clear away the faces, the faces
I clear away the faces, the faces
