

# Hello

From Indian Lakes

Go on  
Go on this way  
Get out  
Get out, be new  
Head up  
Head up, move on  
No doubt  
No doubt, she's gone

No more time and I'm evicted  
Nothing comes to mind to get you back  
And it comes around again  
And it comes around to say hello  
You were mine and I'm addicted  
Too much comes to mind and eyes roll back  
And it comes around again  
And it comes around to say hello

Washed up  
Washed up to shore  
Drink up  
Drink up, she's pure  
Hold out  
Hold out the earth  
One shout  
One shout unheard

No more time and I'm evicted  
Nothing comes to mind to get you back  
And it comes around again  
And it comes around to say hello  
You were mine and I'm addicted  
Too much comes to mind and eyes roll back  
And it comes around again  
And it comes around to say hello
