

I Lay Different

From Indian Lakes

When you're on your way home
I get worried
It's a silly way to live
But I still feel it
Are you on the bus now
Do you get nervous
Is it driving off the road
I can't decide

But I think the same way every time
I'm still laying here in my mind

I can tell you're ok
Are we still lovers
I don't mind if we're not
In love with each other

But I think the same way every time
I'm still laying here in my mind

I lay different, I lay down
I lay different, I lay down
I lay different, I lay down
I lay different, I lay down
I lay different, I lay down
