

## Label This Love

From Indian Lakes

Label this love  
Put it in a jar, and deliver  
Cradle my heart  
Get the beating out, and let it sleep  
Filter this blood  
Get the spirit out, young believers  
Shelter this one, lay it on the bed, and let it sleep

Until I love again  
Come on, let me in  
Until I love again, you belong in your own skin

You belong, you belong in your own skin [x2]

They took me alive,  
Kept me out of sight from the strangers  
You can be alone now, you can hide your eyes and let it be

Until I love again  
Come on, let me in [x2]

I won't hurt so hard with the curtains drawn  
And you know, I know, I know, you don't wanna talk  
Did I love again? Come on, let me in  
Did I love again? You belong in your own skin
