

Eye For An Eye

From Our Hands

Eye for an eye
And dust to dust
We've got no future
We respect the past
Eye for an eye
And dust to dust
Like there's no tomorrow
We will live our lives

I wish I didn't know you
It is no way back
It is no way back from hell
I can't say I don't miss you
But my patience's gone
And my anger's coming

Eye for an eye
And dust to dust
We've got no future
We respect the past
Eye for an eye
And dust to dust
Like there's no tomorrow
We will live our lives

I am going to hate you brother
I am going to grab you by your neck
Tell me how you could stab me brother
Tell me how you could stab me in the back
