Love me! Take me! Kiss me! Get me closer

I can't hide it, my blooming feelings whenever I see you
I'm drawing us out on the blue sky, I can only see you

I can't stop, I don't wanna wake up from this dream
I'm trapped in these times that are filled with you
I'm kissing you

Click clack, each step I take
If I follow the sound of the stars
I remember the night that was especially bright
With my hands gathered

You shine and appear like a star
Making me dizzy, kissing my hand
A miracle that came from the stars
In my sweet dream
My fantasy, you, baby

Hold my hand, it's party time
I believe in you, our paradise

Feels like it's forever, I want to cherish this heart
Shining on your heart that allowed me to dream
Let's just stop like this

Tick tock, when I see the starlight
I remember the night
That was especially bright
With my hands gathered

You shine and appear like a star
Making me dizzy, kissing my hand
A miracle that came from the stars
In my sweet dream
My fantasy, you, baby

Stories I couldn't tell you but I kept in my heart
The day I met you again
I will tell you

Love me! Take me! Kiss me! Get me closer

You shine and appear like a star
Making me dizzy, kissing my hand
A miracle that came from the stars
In my sweet dream
My fantasy, you, baby

Hold my hand, it's party time
I believe in you, our paradise
