Shall we go somewhere else?
Think about it after we hit the road (Tonight)
Sometimes we need to be spontaneous
When the sun sets (Oh yeah yeah)
When I secretly put my feet down from the bed
I can feel the grains of white sand
Yeah this feeling (So great)
I'll open the door and disappear like a wind
The vibe right now is higher, take me higher

Small beach, you and me
I just wanna stay

Stay this way
We're hot and bright
Let loose and dance

The moon tonight's so beautiful
Stay this way
Deep and strong blue
Dive in and get drenched
Stay this way

(Stay this way, my baby)
Stay with me, stay, stay with me
(Stay this way, my baby)
Fireworks across the sky
At our small beach
Look at me and stay this way
