

## Collision

### Front Line Assembly

Danger is what you see prolongment to be  
Can't stick to orders confined to your rights  
Don't stand in the way you'll only fall back  
Tell you who waste your life you can't stop it now

?? the time has come we have to move on  
Stand in one place for never too long

Don't stand in the way

The dark vision ?? but we have to reach out  
Without a decision you can't go too far  
Danger is what you see prolongment to be  
Can't stick to orders confined to your rights
