No Limit

Front Line Assembly

"Back against the wall, now!"

"Well, I don't need to stand for any of this shit!"

Cancel the time
Stop the disturbance,
Turn out the lights,
I don't want to see.
Shut down the mind
End all its functions
Destroy all the rules
Block all emotions.

Stop interference,
Just be cold.
Leave me alone –
I don't want it.
Find someone else, to be your slave
It's too late.

"Well, I don't need to stand for any of this shit"

"Hands against the wall now!"

The damage is done. (9x)

Throw out your thoughts
Start again.
Malicious redemption – the options are few.
Blow up the world
And start again.
Move through the night with caution.
The damage is done ......

The damage is done. (9x)
