Stupidity

Front Line Assembly

Why the f*ck you even think I care
I hope you all go away and die
The whole world needs to start all over
But that'll happen when pigs will fly
I'll kill all you motherf*ckers
Stupidity
That's all I ever see
Stupidity
It's moral poverty
What the f*ck is really going on
There's no governments just corporate greed
Everybody wants a bigger bomb
Lets blow 'em up
And start a new breed
I'll kill all you motherf*ckers

Stupidity
That's all I ever see
Stupidity
It's moral poverty
I just look around at all these dumb motherf*ckers
And all I want to do is go to a shopping mall and open fire
'Cuz that's what is required
That's what is required
Stupidity
That's all I ever see
Stupidity
It's moral poverty
Stupidity
We call it society
Stupidity
Go f*ck yourself
