

## Afterglow

Frost\*

I know we said that it was done  
But my feeling haven't gone  
Now you're on your way back home  
And I can't wait - we don't have to be alone

Be there  
I'll be there

Be there for you  
I'll be there for you  
And I'm feeling maybe we should see it through  
Ain't nothing together that we couldn't do

We could live in freedom  
If only we could see it  
We could have a kingdom  
If only we believed it  
We could be the movement  
If only they could choose it  
We could be the future, future, future

We could have a kingdom  
We could have a kingdom  
We could be the movement  
We could be the movement

When the lights go down below  
Through the night let's stay afloat  
And I'm never gonna let you go  
We'll be together in the afterglow

Be there for you  
I'll be there for you  
And I'm feeling maybe we should see it through  
Ain't nothing together that we couldn't do

We could have a kingdom  
We could have a kingdom  
We could be the movement  
We could be the movement
