... the ancient ground, of the Carpathians
THis is the world, of the black arts
My place is occupied by desires,
Coffins are floating in the ballroom
The wind of graves are appearing
Where my reil is floating
When the twilight will cover the whole
World an ever wandering will start
A flash in the night
A bright shade in the thick darkness
A cold fire in ancient spirits
A crystal heart throbs
The Light of a Life disappears
When the sun rises
Ancient blood... the Liquid of Life, and death
Domination, above, the mortality
Sentences, from the cradle of Legends...
Olam a son, arebil des
Menoitatnet, mi sacudni son en te...
Immortal god
