

Good Guy

Frou Frou

Fire! Fire!
Caught in the centre!
Naked calculating
End of subdivision, no?
It can't be all gone - come on,
Where d'you hide it huh?
I don't believe this
Why is everybody leaving?
Wait up!

I'm the good guy
I'm the fucking good guy
Alright? You're wrong
I'm on your side
So strike it from the record, just a second yeah?
Yeah, we have a match, we have a match

Somebody stop that man!

Tell me what were you thinking?
You knew how much this meant
But you couldn't help it (aah)
Oh no!
You had to say something
Don't tell me to please calm down

It was everything I wanted
Just that much away
But you couldn't help it (aaah)
Oh no!
You had to say something

Well, look at what you've done now

Fire! Fire!
Caught in the centre
Naked calculating
End of subdivision, no?
It can't be all gone - come on
Where d'you hide it ha?
I don't believe this
Why is everybody leaving?
Wait up

Well look at what you've done now!

No no-one
Does it quite like you
Oh no no-one
Does it quite like you

Tell me what were you thinking?
You knew how much this meant
But you couldn't help it (aah)
