

## The Clipped Wings (take Me From This Earth)

Frown

One day far in my thoughts  
I'll step over the window of life  
And leave for long way  
One day this intense pain  
I'll grip my palm deep in you  
I can't hear your crying  
I can't see your face  
A soul that needs a pray  
I can see you inside there  
Please open my palm  
Which is closed  
Our lives are winged  
You'll be looking for me  
Far away is my only shape  
You are praying for my soul  
I'm here forever please forgive me  
I need you to believe me  
Spread my wings  
I haven't died  
Please open my palm
