

Bloodlines

Frozen Crown

Hiding in the dark
Waiting for the sun to fall
To leave my hideout
As masquerade begins
Guided by my lust
Undead amongst the living
Static as my eyes
The humans around me

My old enemies are no more
As my kind has survived them all
Reigning from the shadows our domain goes on
Children of the night
Hungry for blood
Demons on the hunt

I'll never be a pure of heart
But you'll be mine for eternity
Another one of my bloodline
Kindred as one

In the age of sin
The monster and the preacher
Unliving in a world
That's afraid of me
Frail as my pale skin
The faith of these believers
Slaves of their free will
Ruled by cowardy

Kain is guiding me
The legacy of years ruled by fear and by scorn
At one with the dusk
My chase goes on
Master of disguise
Wolf as a lamb
In this realm of lies

I'll never be a pure of heart
But you'll be mine for eternity
Another one of my bloodline
Kindred as one

I'll never be a pure of heart
But you'll be mine for eternity
Another one of my bloodline
Kindred as one
