

Fail No More

Frozen Crown

After many years spent far away
We are back home
Back to rule our land again
And to steal back our crown

Fleeing out
From the city of the blind men
We've returned
And we're going to stay as long as forever
Chasing out all the creatures and the nightmares
As we learned, all the limits
Are to break forevermore, you know

Fail no more
The fights against our will
The battles we have lost, are long gone
And I know
The times we've ways dreamed
Someday will be our own
Fail no more

Faster than a blaze
Our hand will strike them from above
Thousand million blades
Won't be enough to break the storm
