

Lost In Time

Frozen Crown

Inside I was frozen
My heart was lost in time
Those words you had spoken
Left deserts in my mind

When lights go down
We'll fall asleep again
As we were meant to be
Tonight you'll see
Holding you tight

I'll show you the way
To save you from damnation and despair
We'll remind all the words we didn't tell
As we were too afraid to take a blame
Shameless and blind
We'll break off our chains

Only your arms can keep me warm
This cold December
Nothing here could ease my sorrow
Since you went away
You came back in time
Just to see the lights surrender
As you've been
What I ever needed and all that I need

Inside I was frozen
My heart was lost in time
Those words you had spoken
Left deserts in my mind
I'll leave it be as tonight you'll come to me
Covered in light to enlighten my dreams

Away from light, I couldn't seize the day
I was too scared to see, could not believe
You'd left me aside and threw me away
Only your arms can keep me warm
This cold December
As you've been
What I ever needed and all that I need

Lies burn deep inside
But still I stand by your side
Together till the end of time
