

One For All

Frozen Crown

Over the hills, far across the sea
There lies beneath our city fast asleep
At night I see in my deepest dreams
How great it used to be, how close now it seems

Fly me up to the clouds so that I can see
What is keeping me out of my land
Bravest warriors gather up
For tonight we will take it all back

All for one, one for all
We stand fiery in the dark
All for one, one for all
We stand fiery in the dark
Till there's blood within our hearts
Fire at dawn
Our realm will be ours again

Hold your ground, make a stand and raise your sword
Led by our pride our hand will strike
Never look back, today's the day
For our blood, for our clan
Give us strength, Gods, tonight
Fire up our ranks
So a new age of freedom begins

All for one, one for all
We stand fiery in the dark
All for one, one for all
We stand fiery in the dark
Till there's blood within our hearts
Fire at dawn
Our realm will be ours again

All for one, one for all
We stand fiery in the dark
All for one, one for all
We stand fiery in the dark
All for one, one for all
We stand fiery in the dark
All for one, one for all
We stand fiery in the dark
Till there's blood within our hearts
Fire at dawn
Our realm will be ours again
