

# Under Thy Throne

Frozen Dawn

I lift my gaze to you, King Darkness  
Almighty devourer of souls  
I am your most loyal follower  
I accomplish your black desires

I get in this vast desolation  
Where the vermin writhe in pain  
Across the valley of the damned  
Where the bloody river flows

Under thy throne  
I pledge in body and soul to you  
Under thy throne  
I obey your black desires

Under thy throne  
I yearn for thy mighty call  
Under thy throne  
I summon black arts

Girded by legions of cold souls  
Crowned in majestic black  
In the halls of thy frozen kingdom  
Your will shall be done

.....Thy will shall be done.....

Spawned by evil forces  
Driven by impious claws  
In front of thy frozen throne  
Your will shall be imposed

Beyond the tower of despair  
I raise my bone sceptre  
Into this infinite abyss  
I invoke you, ruler of this barren land

A wintry maelstrom of immortal snow  
Emerges from my hands  
A swirl of power and destruction  
And the gate of hate unfolds

I await to thy mighty call  
I summon black arts  
Under thy throne...  
Under thy reign ...  
Under thy kingdom...  
Under thy throne...
