

Stare At The Moon

Frozen Plasma

Don't be afraid to shine
Through others life
No hesitate to start
A friendly strife
Waiting for miracles
Sure won't seal the fate
Change how you look at things
And things you look at change

Don't be afraid to search
For different ways
For ways to sign your life
A hymn of praise
Luck may not favour you
But won't let you down
Change how you look at things
And things you look at change

Keep your eyes wide open
You'll miss all the stars

If you stare at the moon
No grand boulevards
Escape from your shadows
You might know where you're going
But I know where I've been
You will stay unknowing
If you stare at the moon

You'll miss all the stars
If you stare at the moon
No grand boulevards
Escape from your shadows
You might know where you're going
But I know where I've been
You will stay unknowing
If you stare at the moon
