Hey yoh trooper you're the coolest kid in town
Join the warmachine and fight on foreign ground
Our intentions are righteousness and peace
This can be your show, go feed the weaponry
Go and give your life for god and fatherland
The mysteries of war will lie in your hands
Our reinforcements are waiting to invade
Help us rundown the rogues of this world

Take your rifle and fight for your right
Take your rifle and fight for your right

Ref:

Hey liberator from far off
Do something you can be proud of
Take your rifle and fight for your right
Love your platoon and enjoy your fight
