

Warmongers

Frozen Plasma

Hey you trooper you're the coolest kid in town
Join the warmachine and fight on foreign ground
Our intentions are righteousness and peace
This can be your show go feed the weaponry
Go and give your life for god and fatherland
The mysteries of war will lie in your hands
Our reinforcements are waiting to invade
Help us run down the roaches of this world

Take your rifle and fight for your life

Hey liberator from far off
Do something you can be proud of
Take your rifle and fight for your right
Love your platoon and enjoy your fight
Patriots we will reward you
Our nation will be so proud of you
Take your rifle and fight for your right
Love your platoon and enjoy your fight

Heroes and crusaders - enjoy your stay
Hear our slogans - let us feed your brain
Patriots listen we need you to volunteer
Soon your final destination will be clear
Hey you trooper you're the coolest kid in town
Join the warmachine and fight on foreign ground
Our intentions are righteousness and peace
This can be your show go feed the weaponry

Take your rifle and fight for your right

Hey liberator from far off
Do something you can be proud of
Take your rifle and fight for your right
Love your platoon and enjoy your fight
Patriots we will reward you
Our nation will be so proud of you
Take your rifle and fight for your right
Love your platoon and enjoy your fight
