

Atomic Winter

Frozen Soul

Kingdoms immolate
Salvation far too late
Ancient of the old
Take your place far upon the nuclear throne
Ashes rain
Devastation, a new domain
Primeval, champion
Dauntless might of a thousand burning suns

God of destruction
Nuclear salvation
Shroud of embers
In atomic winter
Atomic winter

Atomic winter coats the earth
Humanity returned to dirt
Cleanse by flame, slow rebirth
God of destruction

Desolation
Fearless power of the sun

Scorch the lands
Conquer the weak
King colossus
They bow to your feet

Titan
Destroyer
Bring forth
Atomic winter
Atomic winter
Atomic winter
Atomic winter

Reign in destruction
