

A Lingering Love

Fruit Bats

Good to hear you're feeling better
But I still got a ways
Oh to be where the weather's wetter
With a stomach settled
And a mouthful of great lake

Way too much to buckle under
You can almost smell the stolen thunder

Still I got a lingering love for this place
Let's turn the plane around
I don't wanna give up

I used to think I needed order
But not so much anymore
Always cautious around the corners
Always feeling like a foreigner
Knocking at the locked door

Passing cars and rollin thunder
Passing cars and rollin thunder

Still I got a lingering love for this place
Let's turn the plane around
I don't wanna give up
'Cause I got a lingering love for this place
I gotta lingering love for this place...
I I I I...

Still I got a lingering love for this place
Let's turn the plane around
I don't wanna give up
'Cause I got a lingering love for this place
I gotta lingering love for this place...
I I I I...

Good to hear you're feeling better
But I still got a ways
