

## **Creature From the Wild**

**Fruit Bats**

Back when you were just a pup  
Runnin' around  
Down on the streets of Mexico  
Only rain to fill your cup  
Stars for a roof  
And a stone for a pillow

Then you came to us  
A creature from the wild  
But you behaved just  
Like a perfect child  
And you saved us for a while

Back when you were just a boy  
Living in a garbage bin  
Behind the motor inn  
Oh, with a thorn in your paw  
The sweetest heart  
With a worm inside of it

And you came to us  
And started a new life  
And you looked at us  
And everything was fine  
And you saved us for a while

Then you came to us  
A creature from the wild  
But you behaved just  
Like a perfect child  
And you saved us for a while  
And you saved us for a while
