

Eagles Below Us

Fruit Bats

I'd wager your dreams are so strange
I'd like to be in one sometime
Falling, falling from the mountain
Unafraid and undefined

So far out only stars around us
So far up there are eagles below us

I've never seen you so lovely
Lillian Gish, soft lit
A million years will pass and I'll still be
Never close to over it

So far up only sky surrounds us
So far up there are eagles below us

So far out only stars around us
So far up only sky surrounds us

So far up there are eagles below us
So far up there are eagles below us
