

Gideon

Fruit Bats

Everybody said that it would just come to you
Everybody said some spirit would pull you through
But you didn't know it'd be so hard
Out there

Everybody said that good would come to you
Everybody said something would pull you through
Even though it was hard
You know in your heart
You tried
You tried

Everybody said that good would come to you
Everybody said someone would pull you through...

But you know in your heart
Even though it was hard
You didn't know it'd be so hard
Out there
Out there

Everybody said that good would come to you
Everybody said someone would pull you through...
