

It All Comes Back

Fruit Bats

We lost some time
But we can make it back
Let's take it easy on ourselves, okay?

It's like ridin' a bike
And I wish you were here to see
See it all rushin' back
Yeah, you know it all comes back

We lost our way
We lost our sense of place
I don't even know where I am today

But it all comes back
It's like ridin' a bike
And I wish you were here to see
See it all rushin' back
Funny how it all comes back

And it all comes back
Havin' a ball
And I wish you were here right now
To see it all rushin' back
Funny how it all comes back

And it all comes back
Havin' a ball
And I wish you were here right now
To see it all rushin' back
Funny how it all comes back

And it all comes back
Havin' a ball
And I wish you were here right now
To see it all rushin' back
Funny how it all comes back
