

## Rock Doc

Fruit Bats

Heard you're not feelin' so hot  
You should go and see the Rock Doc  
He'll give you a B12 shot  
Maybe fix you up

I can still see you're a scared cub  
Want to be loved by everyone  
Baby it's time that you should slow it up  
Sick of seeing you bailing and throw it up, up

You got designs on the world I'll see  
Maybe hoping for a dynasty  
Maybe just good old fashioned beauty and truth  
Or just some girls to talk to

Headlined at the roundhouse  
Tickets from Tokyo to Pittsburgh  
You had to [?] the platter of the world  
And it's not so bad

And I'm feelin' [?] and lived in  
'Cause I tried so fuckin' hard back when  
Blew one too many spark plugs  
Trying to love and to be loved  
And I tried so hard it broke me  
'Til the cigarettes were smoking me  
Not even a little bit of mercy  
No holding back

I can still see you're a scared cub  
Want to be loved by everyone  
Baby it's time that you should slow it up  
Sick of seeing you bailing and throw it up, up

And I'm feeling [?] and lived in  
'Cause I tried so fuckin' hard back when  
And I blew one too many spark plugs  
Trying to love and to be loved  
And I tried so hard it broke me  
'Til the cigarettes were smokin' me  
Not even a little bit of mercy  
No holding back  
No holding back

Just try to love and you'll be loved  
Just try to love and you'll be loved  
Just try to love and you'll be loved  
Just try to love and you'll be loved
