

Silverfuck

Fruit Bats

I hear your winter
And I hear your rain
But I've failed your summer ways
And I feel no pain

I hear what you want
And I feel that way
I hear what you want
And I feel that way

I hear you fade away
And I hear you crawl
I gave my life away
I feel no pain
I feel no pain
And I feel your pain

She was my lover so sweet
She was my angel
What I've recovered of me
I put into a box under my bed

When you lie in your bed
And you lie to yourself
When you lie in your bed
And you lie to yourself

Bang, bang, you're dead, hole in your head
Bang, bang, you're dead, hole in your head
Bang, bang, you're dead, hole in your head
Hole in your head

I hear what you want
And I feel that way
I hear what you want
And I feel that way
I hear what you want
And I feel that way
I hear what you want
And I feel that way
