Ambivalent & a chaos town
It's ideal to hold a depth New world
I'm not little boy to ask an Answer
While galloping from One way to another

I'm jumping over the pain
Never stop to stretch my hand
If only I won't hesitate to go on a Free way

Oh I'll be there to have a light
I'll Ride on & search for the IMAGE that's on the other side
Oh I'll be there to have a light
Yesterday's pain, streaming voices can be heard beyond the endless road

Unstoppable Voices Borderline
Telling you Don't be afraid
I swear it in my heart No return
I'll connect to all wounded & make One way

I'll make a new day from all until yesterday
Come on Let's Go Shine My Way

Don't lose my way Ready go Higher ground
Just leave with your instinct, go Diving & fly
Don't lose my way Ready go Higher ground
Nobody knows the new world, ideals must be end

Polish it, Hit it, Fight, Compete
No return Just rise One way

Oh I'll be there to have a light
I'll Ride on & search for the IMAGE that's on the other side
Oh I'll be there to have a light
Yesterday's pain, streaming voices can be heard beyond the endless road
