Long time no see. You got prettier.
Your brightly smiling face
My heart hurts
I have so much to say but I bury them inside my heart
Because I have to let you go
When you wake me up
When you cook for me
When you sometimes wait for me secretly and then jump out at me
When we kiss, when we first met
All of these do not let me to forget you

It has to be you
I can't live without you
I try to fight it off, I try you push you away
But I can't
Because I love you, because I love you
Because you have all of my heart

When I wake up alone (I remember you)
When I eat alone (I miss you)
Sometimes living is too much. When I want to lean on someone
When I dream about you (I want to hug you)
When I see someone like you
These moments make me miss you more

It has to be you
I can't live without you
I try to fight it off, I try you push you away

But I can't
Because I love you, because I love you
Because you have all of my heart

When we born again, when we meet you again
Let's notice eachother sooner
Let's never say good bye
I as your man, and you as my girl
Let's live like that forever

It has to be me
You can't live without me
I know your heart more than anybody else but I'll let you go
Because I love you. Because I have to
Because you have all of my heart

I hate to let you go, thats what my heart says
But I have to let you go
