

Clone of the Universe

Fu Manchu

A future reshape
Time in reverse
Signal from downtown
Clone of the universe
Faceless eyes see
They used it first
Continue to walk by
Clone of the universe

Clone of the universe
Clone of the universe

Millions of faces
Crowd will disperse
Sound is unnerving
Clone of the universe
You are a witness
You can affirm
This time forever
Clone of the universe

Clone of the universe
Clone of the universe

Destroyed minds in this time
Destroyed minds in this time
Destroyed minds in this time
Destroyed minds in this time
